

Blake Tullis Appointed New Interim Associate Vice President for Research | Utah Water Research Laboratory

08/15/2019

UWRL faculty member and Associate Director Blake Tullis was recently appointed to the position of Interim Associate Vice President within the Office of Research.

Blake Tullis

In this new position, Tullis will work with the Office of Research to support and highlight research efforts at USU. Tullis is an excellent fit for the position, having conducted research at the UWRL for the past 22 years and authored 2 books, 12 book chapters, and 45 peer-reviewed journal articles.

Tullis will remain a faculty member at the UWRL, and will continue to work within the hydraulics department to conduct hydraulic and fluid mechanics research and model testing.
